

ABOUT ZARTEK

Zartek Solutions provides a full suite of system design, development, integration, information assurance, and program management support services to federal clients. Our vision is "Inspired to Serve". Our core values reflect this founding principle and we manage and retain our talent based on adherence to these values. Our culture begins with a commitment to each other and teamwork, innovation and collaboration. This collective energy is then focused on providing our clients with innovative solutions to their most pressing challenges.
